## FIRST, A FEW WORDS OF INTRODUCTION

I have been restoring Chrysler products since 1966 and producing parts for them for over 35 years. That makes me real old or real dumb or both! I started making parts since there were next to none available and the business grew from there. The variety of parts grew over the years and I try to keep everything I ever had in current supply. This has not always been possible especially lately. Catalog #9 was around for many years and getting rather scattered. This catalog #10 is a bit better with almost everything in its proper category. Sorry for any typos or other goofs. There have been the inevitable price increases and some reality checks on some items such as carpets. Color choices from standard suppliers have dwindled to very few and, with few exceptions, I'll have to resort to offering only black in loop or cut pile. Continue ordering as usual and I'll let you know if there is a problem and the best way to solve it. Everything I have or reproduce is in this catalog except for the 300 letter car interiors which are in a separate sheet upon request. Thanks to you all for years of support and thanks to Brad Leisure for his many small parts drawings (poor ones are mine).

## INDEX

### INTERIOR

Gas and brake pedals	1
Dash parts, steering column seal, seat parts	2-3
Floor carpets, windlace, upholstery	4
Chrome screws, dash parts	5
Rubber floor mats, aluminum inserts	6
Top boots, top wells	7
Glove boxes, firewall pads	8

### DOORS

B. Power steering  
'57 Dodge, some '57 Plymouth  
steering column seal.  
Need your old core.

105. Mast jacket seal '57 chrys. DeS.

#334 '57 Dodge,  
Ply. steering column  
seal

107. Mast jacket seal  
'58-'59 Chrys, DeSoto

#431 Door sil  
plate screw  
8x1/2 truss head,  
chrome

#428 STAINLESS STEEL STUDS  
for convert. top boot snaps.  
#8x1" Phillips head.

#430 Multi-purpose  
black plastic fastener.  
Replaces metal windlacing  
clips.

426. Hog rings, 500 + pcs.

#427 HOG RING PLIERS  
professional quality

405  
'63-'66 A body  
Gasket--white styro  
Steering col. base cover  
A w/ auto trans  
B w/ man trans

425. BURLAP Use over seat springs.

424 SEAT SPRING "LADDER" Helps distri-  
bute weight evenly over springs. Replaces  
old style tempered wire woven through  
burlap. Can be cut for bucket seats.  
Use over a burlap covering and hog ring  
into place.

FLOOR CARPETS OTHER THAN '55 - '62 300'S

All prices below are for black material. Cost has increased dramatically in the last few years and color choices have decreased. Colors other than black will be 10% higher. Carpets are sewn and edged as original with reproduction heel pads for each year. Send a sample for the closest color match. The '55-'56 Chrysler; '55-'56 DeSoto and '60-'66 Imperial are priced \$170. The '57-'62 Chrysler; '57-'59 Dodge/Plymouth; '65-'68 C-body are priced \$140 for loop pile & \$150 for cut pile. '60-'62 are cut and sewn to replace the original molded carpets. Molded carpets are not available for most of these. Please state make, model, number of doors, and if it has power seats or manual seats.

CARPET PAD \$6.70/yard  
High Quality easy-to-work-with synthetic jute  
 $\frac{1}{2}$ " thick by 36" wide

Panel Boards

Attached to swivel seat track. Price for '59 all models is \$20.00 - can make the vinyl pieces other than black if you send 2 sq. Ft. of your vinyl.

Vinyl Skirt

Attached to '57 front seat cushion plastic (black) price is \$16.00 per set.

Console Inserts

Lined aluminum centers for '60 - '62 letter car consoles. Die cut exact reproductions. polished and anodized. Price is \$300.00 per set

Windlacing

The original cloth/ nylon type us no longer available. I carry a complete line of cloth - covered windlace which resembles the original. It is available in black, blue, navy, camel, fawn, brown, green, forest, silver, red, rust, maroon, and turquoise. with this comprehensive Color Range, I can match almost any color. Price is \$2.20 per foot. Other colors can be made with fine - knit vinyl, customed died to match your sample.

Price is \$3.65 per foot. Snap-on combo type for earlier A&B-bodies are also available in limited colors at \$20.00 per yard.

#532 '60-'62 300 cvt. plastic extension for bottom of rear armrest panel. \$70.00set. Flocked black.

#552 '60-'62 center piece for visor pins \$8.00  
A. non-convert.  
B. convert

#549 Heater-A/C fresh air door A. No A/C B. With A/C \$45 each with your core. I have to have your old one to reuse the steel core. A/C and non-A/C are different.

#539 '60-'63 300 heel pad rubber inserts. Strip of 4

#601 '57-'58 Plymouth manual steering column seal \$12.00

#550 '60-'62 300 insulator between the top end of front console and dash. \$6.50 Often missing piece prevents squeaks (well--this one anyway)

135. Chrome tapping screws

- A. #8 x 1/2" #6 head
- B. #8 x 3/4" #6 head

int. sheet metal  
nail. 12X 1/2"

77. Vinyl Covered Litter box '60

#676 '55-'56 300 console lined aluminum inserts. Beautiful reproductions to replace those impossible to fix originals. Rear is done in two pieces due to material limitations. The two pieces butt together at the rear next to the console compartment. The joint will be unnoticeable. \$300/set fr. & rear.

#677

Set of four rubber floor mats. Nice reproduction of late fifties MoPar floor mats. Work fine from '55 and up. Available in black, seafoam green, red. Beige and brick are now only available for fronts, but rears will be available soon. Brown is coming soon. Beautiful authentic finishing touch to your restoration. \$195 set of four

#679 '55-'56 Chrys., Des., Imp. steering column seal. Sandwich construction-waterproof board, jute type pad, thin rubber. Just like original. \$20.00

#699

'59-'64 all full size cars. \$32.00 with A/C

Waterproof board backs for heater, A/C plenum under dash. Install with 1/8" all aluminum pop rivets with backing washers on board side. Originals were usually stapled but trying this is likely to break the fiberglass. Also available for non A/C '57-'64

701 '59 Chrysler, DeSoto hand brake cover. The original covers are extremely hard to find due to their fragile thin plastic construction. I took an original and did some "body work" on it to make it about three times as thick as original, sanded, primed, and sanded before pulling a mold from it. The second picture of the back side shows the added thickness and strength. Molded in very hard urethane. It will require light sanding, priming and painting. All the extra thickness was built up on the outside so there is no clearance problem inside. You will love it and it won't break! New bolts included. \$40

'60 and later park brake release handles molded in very hard (plastic like) urethane

702 Early '60 This piece pushes onto splines on the release arm shaft. Heat the splines to aid in pushing it on without damaging it. \$16

#703 Late '60 & later. The originals are easily broken and due to the roll pin holding them on, they break easily trying to take them off and especially trying to install them. I have made the back side thicker & stronger and also incorporated a machine screw and nut for easy installation (included). You will need to enlarge the hole in the shaft very slightly with a 9/64" drill. The back side turned out a bit rough, but the front visible side is great. \$20.00

705 '57-'59 Chrysler, DeSoto manual trans. main column seal. Must have your old core. \$38

706 '57-'59 Chrysler, DeSoto man. trans. secondary column seal. No core required. \$17

#707 late '60 & later bumper on park brake assembly. takes handle #703

429. SEAT FOAM FOR BUCKET SEATS Beautiful reproductions-- cut from the highest quality "instant Rebound" foam on Specially Designed jigs to match original *Contours*--backed with burlap and edged with cloth where original. Use with new seat spring "ladders" and restore your seating comfort. Prevents stretching your new upholstery out of shape too. A complete set, fronts and rears, for the '60-'62 Chrysler 300 letter cars Cost \$460. For '60-'64 C-body, and '62-'65 A- and B-body, front bucket seats cost \$240 a pair. Incredibly, all these years and body styles used only two basic seat layout designs-- full insert or partial insert (or a combination of the two). See drawings below. Examples: the '60-'62 letter cars all have full insert bottoms and partial insert Backs. Shipping for a full Front and rear set or for one or two sets of fronts is oversize 2.

### Top Boots

These boots are sewn to original patterns with snaps in place, including hidden snaps where applicable. Colors vary widely and I do my best to match your sample with readily available goods. NOS or reproduction vinyl can be used at extra cost. Other boots can be custom made for comparable prices if you send your old boot. '55-'70 Chrysler, '55-'60 DeSoto, '57-'62 Imperial, '57-'60 Plymouth/Dodge, '63-'66 Dart/Valiant, '68-'70 B-body (with correct hooks), '68-'70 C-body. Pricing ranges from \$235 - \$260 standard vinyl, \$280 - \$330 with NOS or reproduction vinyl. Figure a middle price and I'll adjust on the final bill.

### Top Wells

These are sewn to original patterns using readily available Materials closest in color and grain to your sample. NOS or Reproduction vinyl can be used at extra cost. Other wells Can be made at comparable prices if you send your old well. Drains are not included. '55-'70 C-body, '55-'60 DeSoto, '57-'62 Imperial, '57-'60 Plymouth/Dodge, '63-'66 Dart/Valiant. All are priced \$110

### Seat Upholstery Other than 300's

I am now collecting patterns for various popular Chrysler products. I have found extremely close matches in color and grain for many. I now Have patterns for '56-'60 Imperial; '56-'60 Chrysler NY; '57 Desoto FF; '56-'59 Adventurer; '56 Pacesetter convt.; '57-'59 Fury; '59 DeSoto FF & FD; '59 Dodge; '62 Fury; '63-'66 Dart GT '65-'66 Valiant. ('57-'59 Adventurer And Fury reproduction cloth is done, please ask for separate price sheet). Prices given by quote.

#### '62 - '65 Upholstery -300s--

'62 Non-letter 300 leather seat upholstery kit, Top grain leather sewn to original patterns with stamps in the front backs exactly like the originals. Any Color. Fronts with center armrest \$1250 rears \$1180.

'64 300K seat upholstery Kit. Top grain Leather sewn to the Original patterns. Fronts \$1285 Rears \$1180 Pearl white add \$70.

'65 300L seat upholstery kit. Top grain leather sewn to original patterns. Black fronts \$1265 Rears \$1200 Other colors add \$75. Console Carpet \$60. Floor Carpet ( must reuse Heel pads) \$150

W109

'57-'59 STATION WAGON AND 4 DOOR SEDAN PARTS

'63-'66 A-BODY  
STATION WAGON

NOTE: Due to the extremely limited market for station wagon rubber, the tailgate and door weatherstrips are made up from a combination of several different sponge extrusions super-glued together. W133 and W134 were specifically made for station wagons. My '59 DeSoto wagon with aluminum window frames was the source of samples for the molded parts.

Some weatherstrip items listed have been simplified to work better. I'll refund the difference--They're cheaper!

W52B. Chrome plastic lockstrip used with W130. Enough for one side. \$18.00

- Tailgate inner belt weatherstrip. (4ft pc.) \$7.85ea.
- Front door division bar. (C3) \$10.25ea.
- Front door glass top and rear channel. (C11A-60"pc) \$14.75ea.
- Rear door glass channel. (C11B-96"pc) \$22.75ea.
- Tailgate glass upper channel-in body. (C12K-1x60"pc; 2x15"pcs) \$23.00
- Tailgate glass lower channel-in tailgate. (C13K-2x18"pcs) \$12.30
- Tailgate glass bottom frame setting tape. ES15116 (Can also be used to set top and sides stainless frame.)

W115K  
Front door weatherstrip kit. (Does not include molded parts--see #436, #437) (Right and left) \$35.00ea

W116K  
Rear door weatherstrip kit. (Does not include molded parts--see #438) (Right and left) \$35.00ea

W130 \$65  
'63-'66 A-body SW. Rear side glass seal--enough for one side.

- TS17 '70 E-body

#375 Early '70 trunk seal A & B-body, Sponge seal made like original. Compare yours to illustration.

### TRUNK CARPETS

Cut, sewn and edged as original. Notches for some latches. Braces, spare tire hold down, and jack hold down not cut out. For '55-'61 carpets are gray cut pile custom manufactured to match original. This is not original texture for '55-'56. To my knowledge no one has ever found any original material. For '61-'62 Chrysler, carpets are black cut pile. Custom designed to replace original rubber mat. For '63-'64 Chrysler, & '64 Imperial, carpets are synthetic felt-like material that resembles original. For '65-up Chrysler, carpets are black loop pile.

## TRUNK PANELS

Custom cut from original patterns, scored and edged as original, ready to install. Set includes right and left side quarter, panels wrapped around trunk hinge and wheelwell area, panel behind rear seat, and panels under rear lip where original. Generally Chrysler panels are gray until '61, then black; Imperial panels are gray until '63, then black. Dodge and Plymouth panels are all gray. Exceptions to these colors are '61 Chrysler which could have either black or gray and '57 Dodge which could also have tan. This may also be true for '57 Plymouth, but I'm not sure.

PLEASE NOTE: Shipping size on almost all trunk panels sets is oversize II. It is much more cost effective to ship all large items in the same box such as firewall pads, rear decks, carpets, etc. Also see trunk carpets on previous page and jack instruction sheets on page 19.

I can no longer be sure to supply snap in buttons with trunk panel sets. They are now obsolete! Save your Originals!

# JACK INSTRUCTION SHEETS

Each one has been painstakingly recreated from the original. They are all printed accurately and clearly on the correct paper for each particular car. Complete your restoration with these high quality reproductions. I have recently finished many '55-'59 sheets. Be aware that during these years there were only DeSoto sheets. I have never seen, or met anyone who has seen, any other than DeSoto. Over 20 years ago I changed DeSoto sheets to make '57-'59 Chrysler sheets. Now I have completed the collection. Anyone else selling these sheets without buying them from me simply stole my artwork. Not original, but sure looks good ! ALL \$5.00 Each

- C. Hood release cable \$3.00
- D. Vac. hose or speedo cable \$3.00
- E. A/C vac. motor hoses \$3.00
- F. Large blank \$2.75
- G. Push button cable \$3.50
- H. Speedo cable \$3.50
- I. Main wire loom (bottom rounded block) \$3.50

**681** '56-'54 power brake master cyl. boot \$10

'60-'61 starter solenoid boot \$6.00

#620 hood to fender bumper \$1.80

**691** '65 and later heater-A/C sponge gasket and grommet set. \$14/set

#568 Oval air filters

- A. '57-'58 single carb; '57 dual carb \$12.00 each
- B. '58-'62 dual carb (except rams) \$22.00 each

#558 '60-'64 ram intake equalizer tube hose clamps. Correct original style. Set of 4 (two sizes) \$10

#557 '60-'61 starter hot lead insulator \$3.50

Start both tubes here -- install small one first; then big one over it.

**712** '57 A/C evaporator drain tube (plastic parts not included) \$10

Start big tube here over small tube catching about two threads of the adjuster portion.

Start small tube here first.

**#678**

Shrink tube repair for trans shift cables. Trans cables rarely wear out except for the rubber or plastic covering which then causes a leak. A little time and cleaning will fix the problem. These special shrink tubes have glue built into the tube which is activated by the heat when shrinking. Two different sizes are used to get an original look and a perfect seal. Instructions included. \$23/set of two tubes

**689**

Molded fake tar top battery cover. This will fit '56-'59 group 27 replacement batteries with a flat top and both posts on the same side. The original or reproduction holddown frame used in these years hides the edges and holds it in place.

Sorry, for now you'll have to come up with the six screw in caps. The holes for the caps are not threaded; the caps push in tight enough to stay. The holes are open at the bottom so your battery is still vented.

\$20

#510 '56-'60 starter, generator, distributor tags. Beautiful silkscreened aluminum tags complete your detailed restoration. Also available in red for 6 volt. Blank tags \$12.00 EACH

# SPLASH SHIELDS

(102) -

All splash shields are for Chrysler and DeSoto C-body unless labeled otherwise

W87 '57-'64 vertical seal between front fender and body. 2 ft long \$6.50

'66-'68 C-body almost the same as Q, R, S. Order Q, R, S and state year ('66-'68)

Most early cars used staples to fasten the splash shields. Heavy duty staples are included and must be installed one at a time by hand. Use an ice pick to punch holes.

Most '62 & newer splash shields take small wire type fasteners. These are not available, but were used for years on almost all cars. Check your wrecking yard.

WINDSHIELD AND BACKGLASS RUBBER

The windshield and back glass seals listed below are extrusions-no molded corners. Unfortunately I lost my original manufacturer for these. I did get a good new manufacturer, but can't possibly afford to make all new dies for many of these which are very poor sellers, so I'll have to discontinue some as I run out of stock. The application listing is the best I could do. There are many models which take different seal profiles in the same year, so please check the crosssections against your originals. Molded seals were done, but the project turned into a nightmare. Go to page 50 for more info.

WINDSHIELD SEALS

All are priced \$85.00. Enough for one windshield.

- W40 '55-'56 All with snap-in outer stainless top trim
- W37 '55-'56 All bottom
- W37 '55-'56 All top & bottom if no snap-in top trim

EVERSEAL GLASS SETTING TAPE

**NEW!** Super windshield and backglass seals. One piece high quality highly detailed seals with molded corners. All are priced \$90each.

All are for HTs. & Sdns unless otherwise noted.

Easy to install, this tape retains its strength and flexibility indefinitely. If a light oil is applied to it or the sidewalls of the channel, installation is made simpler and the tape will swell after setting and provide a permanent cushion for the glass.

TOOLS AND SUPPLIES

GLASS POLISHING ASSEMBLY

Complete with 1/4" shank.

A special handle and insert tool for installing self locking one piece rubber. Also excellent for installing rubber channels with a lip. Insert tool between the locking lip and its groove. Then, by moving the tool along the groove, the rubber lip locks in position.

\$21.50

Inserts the locking strip around windshields and other windows.

\$15.25

Plastic insert tool eases installation of glass into rubber channels and gaskets. Tapered ends slip in easily, and tool won't chip or scratch glass. Also good for tooling sealants.

\$1.50

\$11.50 KD2037

One end of this tool spreads rubber zipper type gaskets. The other end removes "standard" Chrysler clips.

Tool designed to speed closing of self-sealing windshield and back glass rubber.

\$13.25

Made of highest quality white Spanish felt. 3 inch diameter by 1 1/2 inch thick. Wheel should be trued before each operation by gently running on medium grade sandpaper.

5703 \$28.50

CONTACT CEMENT

A high quality fast drying general trim adhesive used to glue leather, weatherstrips, vinyl, carpet etc.  
 AD102A Quart \$6.70 AD102B Pint \$4.10

CERIUM OXIDE

High quality, optical grade polishing compound.

CO405 \$8.75

*It just had to happen--blank space to fill and nothing to put here. So, let me take this opportunity to remind you once again to send in your cores for gas and brake pedals, gap fillers, colum seals etc. with your order. Sure cuts down on a lot of hassle. Be sure to check out the new reproduction lenses and chrome. Really nice stuff!*  
*A note on this page. Some of these tools may not be available much longer and those that are available seem to be made of gold when I order them. I'll try to keep them in stock.*

# Decals !

Excellent reproductions, clear printing, neatly cut edges. Many not found elsewhere (until they copy these!) See pages 37 & 38 in catalog for more. Most decals are shown smaller than actual size.

Replacement for stamped printing on coils. These are printed on clear stock as an easy way to have your coil look original without all the mess and expense of trying to ink stamp it. According to the parts books #570 is for '56-'58, #571 is for '59-'63, and #572 is for '64 and up. Many of the #570 versions have been seen on cars later than '58, so you be the judge of which you want. Doesn't seem to be any distinct cutoff dates.

#587A - A sticker for battery to give it a more original look. This one is for the big battery (series 27) for years '56-'58. 6 1/4" x 3 3/4" ..... \$5.00

#587B - Same as above, but for smaller battery (series 24) ..... 6 1/4" x 3 3/4" ... \$5.00

#588A - '59-'62' battery sticker for 27 series 6 1/4" x 3 3/4" ..... \$5.00

#588B - Same as above for 24 series. 6 1/4" x 3 3/4" ..... \$5.00

Note: New cars were not delivered with MoPar batteries! The MoPar stickers were on replacement batteries. Also there doesn't seem to be a consensus as to exactly what years the different stickers were on, so which ever one turns you on basically.

12V BATT. DIST. USE WITH EXTERNAL RESISTOR. PART NO. 1688212. AUTO-LITE CAH-4001

#570 - \$4.00

12V BATT. DIST. USE WITH EXTERNAL RESISTOR. 2444242. CH-412. 2495531

#572 - \$4.00

#574 - Small oil bath air cleaner decal used on '55-'56, but not the "bat wing" units..... \$4.00

#575 - '56 and earlier power steering pump reservoir..... \$3.00

12V BATT. DIST. USE WITH EXTERNAL RESISTOR. PART NO. 2095223. ESSEX 67-160-2

#571 - \$4.00

#573 - Large oil bath air cleaner decal used on almost everything from '37-'54 ..... \$4.50

#577 - '56 and earlier ( maybe a year or two later) oil filler cap (this was taken off an original '56 DeSoto) ..... \$4.00

#582 - '57-'58 oil filter canister... \$3.00

#576 - '56 and earlier crankcase breather (oil filler tube) cap..... \$4.00

#581 - '55-'56 oil filter canister..... \$3.00

#580 - '55-'56 attached to inside of glove box door... \$3.50

Your car has been equipped with four Goodyear Captive-Air safety tires. Because you have this special equipment, there is no requirement for a spare tire. Service instructions and the guarantee covering these tires has been placed in the glove box of your car. You may consult this literature or your dealer for further information.

#579 - '55-'56 gas door..... \$3.50

#592 - Decal for Imperial trunk lid handle. '57-'59 (see CHR76, page 47 for new handle) ..... larger than actual size ... \$4.00

#586 - Sticker found on a '60 Chrysler driver's door opening (by Jatch plate) for Captive air tires..... 3 3/4" x 3 3/4" ..... \$7.00

These tires were commonly used on to line 9 passenger Station Wagons in '59 and a few later years and probably earlier. If your '57-'58 wagon doesn't have a provision for a spare, that's the clue - it had captive-air tires.

#584 - '62 dual carb air cleaners-slightly different wording than #224, but same size..... \$2.00

#583 - '59 Plymouth air cleaner.....\$6.00

#589 - Red on foil sticker for early A/C compressor (not V type) '55 era ..... \$6.00

**CAUTION**  
BOOSTER OR BATTERY NEG (-) CABLE MUST GO TO NEG(-) & POS(+) TO POS (+) DISCONNECT BATTERY CABLES BEFORE USING CHARGER.

#585 - '60 and later battery caution label for core support. This one is a little thinner and slightly different. Layout than #221 .....\$3.00

#578 - '55 and maybe earlier coil..... \$4.00

'59 Dodge valve cover decals  
#533

**D • 500**

**WARNING**

DO NOT SHORT ANY  
TERMINALS TO GROUND

**WARNING**

033 2098300

#473 Decal for early  
alternator voltage  
regulators

**SUPER RED RAM**

#593 - '55-'57 Dodge hemi valve cover.  
11 1/4" long.... \$18.00 set of 2

#599 - At last! No more pain in the \*\*\* ink stamps to mess with. These yellow on clear stickers replace those original ink inspection stamps. They look great on black, so no problem on other colors. Cut right to the border for clean appearance. \$9.00 set of 3

#594 - Rare and unique decal found on top of heater case on car equipped with dealer added MoPar A/C ..... This was a '60, but my guess would be '57-'64 ... 4 1/2" x 3" .... \$7.00

#626 Seat belt buckle decal.  
'62 and probably later.  
\$2.00

**UN-ZIP REAR WINDOW  
BEFORE LOWERING TOP**

**WIPER - WASH  
LIGHTS - PANEL  
TUNING  
IGNITION  
OFF ON VOL**

#596 - Another rare and unique sticker. Black on silver sticker goes on convertible windshield header (top) trim..... \$5.00

#595 - Black on clear set of stickers to replace painted printing on '60 Chrysler dash aluminum. Scratched and dented originals can be carefully restored with some care pressing out dents and then duplicating the brushed look with 80 grit sandpaper carefully applied in one direction. These individually cut stickers look just like the Original printed words once firmly applied. It will be a little tricky getting them perfectly straight so I'm sending two sets with each order..... \$6.00

#41 B.

#597 - '59-'62 Imperial valve cover sticker  
\$18.00 set

#598 - '63-'66 Imperial valve cover sticker  
\$14.00 set  
Note: Not totally certain on the cutoff year on #597 or the starting year on #598. I'm sure you Imperial nuts know! These are real nice crisp quality, not like some others I've seen.

19 \$5.00

**JACKING INSTRUCTIONS  
FOR  
"SURE-GRIP" DIFFERENTIAL**  
When one rear wheel is raised from the ground, be sure the engine is shut off. Before raising a rear wheel, always have the diagonally opposite wheel blocked against forward or backward motion.

Early '57 car owners!  
Do your heater drains look something like this? Or do you have some crusty remnants of rubber clinging on an oval ring that snaps onto the hole? You're in luck! No, I can't reproduce the original type -- out of sight expensive.. So, I made a slightly larger version of #41 (see catalog page #23.) This is what was used on most '57's and continued through '64 (because they worked!) Just drill two holes, bend in the upper edge of the hole a little and pop them in. Order #41B same price As #41

# ONE PIECE WINDSHIELD & BACK GLASS SEALS WITH MOLDED CORNERS

Sorry to bring bad news on the molded corner windshield seals. I had several made after years of frustration. The extrusions were great, quality was great except the corners could have been a little better, but all in all really good EXCEPT--apparently most of them were made with the extrusions too long. Better than too short I guess, but a problem none the less. The real bad news is that the company has basically either been giving me empty promises or completely ignoring me for better than a year. I've lost more money than I care to think about and can't continue to do so. I only have seals left for the cars listed below. With a rare possible exception, the extrusions will be too long, so I have reduced the price to \$150 each instead of \$185. I've been told by many restoration shops that the extra length isn't a big problem. They just cut off the extra near one corner and use window weld to butt the ends together when installing the glass.

- WS-1 '57-'59 All except Imperial windshields seal  
 WS-2 '60-'64 All C-body except Imperial windshield seal  
 BS-2 '60-'62 Chrysler, '60-'61 Desoto 2 door hard top large back glass.

Extrusions without molded corners are on page 39. These have worked for years. A pain to work with to be sure, but can be done with a little patience, a helper and window weld.

## NEW CHROME IN STOCK!!!

 CHR120 '60 300 grill bars \$300.00/set  
 CHR2-7 '57-'61 side medallion numbers and letters always in stock! \$76.00per/side  
 #542 '57-61 side medallions-injection molded plastic in steel dies, not poured urethane! Always in stock! \$60.00each

'55-'56 Chrysler 300 and New Yorker door armrest bases and pads. Bases are molded hard urethane (consistency of plastic). They will need to be sanded, primed and painted. Arm rest pads are redone with new dense foam pad and vinyl covered as original. Send your original pads to reuse the steel cores. Colors other than black and 300 beige: You will have to send enough vinyl to use. **Important Note:** The bases were very hard to mold due to the limited availability of good originals. The right side original was quite nice; the best left side out of six available was warped very badly and the process of straightening it out and doing some "body work" on it resulted in shrinkage--enough that the steel base for the pad has to be shortened a bit. There was even some refitting needed on the good right side. So: If you order bases and pads I will fit them so you will have a simple screw on operation once you paint them. If you only order pads I will leave them alone assuming you have decent original bases. **'55 Note:** The one piece molded '55 armrests all are turning into goo and have been for decades. Vinyl dye won't work. Remolding them as done originally isn't impossible, it's just not affordable. The '56 bases and pads look almost identical and thus are a great replacement. The stainless trim from the '55 pads will work on the '56 units. The only problem at this time is coming up with the steel cores for the pads. I'm working on this, but they're not available yet. If you can make your own, I will drill the holes for the attaching screws and fine tune them to fit. Will mail you a pattern if need be. Stainless trim is not included

708 Pads-pair \$65  
 709 Molded bases \$80

CHR117 Like my other chrome items, these will be molded with a pewter alloy which will be plated ready to install and won't pit. The molding process for a piece this size is not so simple. Due to the 2% shrinkage, a mold has to be made from the original and then a few parts cast. Then the spares are cut up for pieces to elongate the bottom and sides figuring for the shrinkage from the first casting and the projected shrinkage in the final casting. Then a final mold is made and pieces cast. I actually cut out the whole section of a parts car so the manufacturer had the actual body to fit each of these on before final buffing and plating. The owner of the company (US) assured me that he could do them and since this is the same guy who did a great job with similar problems on the F grill bars, I have no doubt that they will come out fine. Estimated cost is \$320.00each

Update--They are on the way via FedEx as of 5/5/10. I expect them any day, but have to get the catalog to the printer. The manufacturer assured me that they are beautiful. I estimated the cost at \$300, but they came in a bit higher. Still a great deal at \$320 especially compared to the one on eBay that went for over \$500!

# NEW REPRODUCTION CHROME PARTS

Replace your old pitted chrome with new parts for about the same price as rechroming. The difference is these are high quality special alloy reproductions that won't pit!

Here's the complete list of parts being reproduced now. No, they are not all done yet; I expect completion soon. Those marked with an \* are done and they are beautiful. Keep in mind that these are not crude sand cast brass; they are high quality molded alloy parts which are chrome or 24K gold plated and are ready to install. You'll love them or your money back.

#542 '57-'61 300 reproduction side medallions. Beautiful accurate duplicates of originals from a steel injection mold. All holes are drilled for letters and numbers. Chrome numbers and letters not included. New ones can be found on the reproduction chrome page 46.

**REPRODUCTION SEAT FRAME & FLOOR PLASTIC**

Accurate vacuum formed black plastic. Beautiful duplicates of original hard to find parts.

- RP1 '57 Electric seat side covers. 2 door, except Imp. & Ply. (black Only) \$200.00/ set.
- RP2 '57-'58 Cover between electric-seat track and floor. 27" long. All except Imp. & Ply. \$105.00/set
- RP3 '59 cover between electric-seat Track and floor. All except Imp. & Ply. \$105.00/set
- RP4 '57-'58 Imperial cover between electric-seat track and floor \$120.00/set
- RP5 '59-'61 Imperial cover between electric-seat track and floor \$100.00/set.
- RP6 '58, '59-'61 without swivel. Electric seat adjuster cover. \$120.00/set
- RP7 '59 swivel seat adjuster cover, with power seat. \$105.00/set
- RP8 '60-'61 swivel seat adjuster cover, with power seat. \$105.00/set
- RP9 '59-'61 swivel seat adjuster cover, with Manual seat. \$105.00/set
- RP10 '60-'61 300 swivel seat pivot bracket covers \$105.00/set
- RP11 '60-'61 All Except 300 swivel seat pivot bracket covers. \$105.00/set
- RP12 '60-'61 '60-'61 All swivel seat, with wire, except 300 wire bracket covers on seat frame. \$65.00/set

**New Speedometer & Tachometer Cables !**

Original type flexible steel casing  
LIMITED QUANTITY NOS .... '62 & up A-body ... 60" long casing ... \$35.00

**Generic lengths  
'61 and earlier**

- '56 & earlier Chrysler ... 79" ... \$38.00 each
- '57-'61 all ... 70" ... \$35.00 each

I'm very limited on samples for various years, so if you order with your original measurements of casing length, I'll make the cable to your specs.  
Price will be that of the nearest generic length.

**Auto Pilot Cables**

- '58-'61 trans to unit ... 50" \$38.00
- '58-'64 unit to speedometer ... 29" \$25.00

Once again can make to your specs.  
All Trans to Auto Pilot housings and cables  
Are heavy duty size as original.

**Tachometer Cables**

- '60-'62 300 tachometer cables, original extra large casing size ... \$40.00 each

## NEW REPRODUCTION LENSES

These are the highest quality available !

You'll be pleased or your money back !

The normal average 15% shipping will be excessive on most of these. You can guess lower or if you add 15%, I'll refund the difference.

### TAILLIGHT LENSES

### LICENSE PLATE LENSES

#674	'57-'58 Dodge	\$40.00ea
#675	'57-'58 Chrysler, Desoto	\$40.00ea.

# WASHER BAGS

New reproduction washer bags are in stock. As with some other items, this project has been years of frustration. The ones that are done are very nice. The ones with the nipples aren't done and likely won't be. Same for the '59 bags. The company which initially supplied great products in a very timely fashion turned sour in the middle of the projects and managed to rip me off for too much money to think about. Fortunately I did get lots of much needed bags, but the likelihood of getting more is very poor. A workable solution for the bags such as '64 A & B bodies and '61-'64 C bodies with the electric pump is to use the bags without the nipples using a cap with a hole for the hose to the washer pump.

**Quantity discount!** 3-5 bags--10% off, 6-10 bags--15% off, more than 10bags--20% off.

**541A** '55-'56 all, later trucks. \$70

**541B** '57-'58 all  
\$70

**541D** '60-'61 Dodge, Ply.  
full size cars  
Light gray  
\$65

**541E** '62-'64 full size cars  
Black  
\$65

**541C** '60-'63 A & B bodies  
Light gray  
\$65

**690** NOS washer pump '61-'64  
\$95 (very limited quantity)

- 686** New washer bag caps
- A. blank, no hole
  - B. hole for hose
  - C. threaded hole for valve
- '55-'56, '60-'63 A & B bodies  
All are \$12 each. \$8 with bag purchase

**#697** '55-'56 New reproduction of hard to find gray rubber pad for washer foot pedal. Slips over aluminum base. \$8.00

**687** Reproduction washer valve '55-'59 all, '60-'63 A & B bodies. These are very nice reproductions with a molded simulated metal "bottle cap" top painted green to look original; no rust, no leak!  
\$25 each, \$20 each for more than one

- 688** Washer hose
- A. Small size \$0.45/ft.
  - B. Large size \$0.50/ft.

#### A NOTE ON RUBBER PARTS

Virtually all the small rubber parts are made with room temperature curing urethane. This is the only economically feasible way to make so many different parts which are all very low demand, commercially speaking. They turn out very well and I'm always using the latest compounds available for the best quality. The weatherstrips are commercially made exclusively for me in the USA. They are made of the highest quality material available. Many have been in service for over 20 years and still good.

PLEASE NOTE: I can't make parts with steel cores unless you send me your original cores with your order so I can reuse the metal. Please do not send cores that are broken or have studs broken or missing. In such cases, burn off the rubber and repair the core before sending it. The exceptions to repairing are #127 and 128. Repairs on this thin steel usually result in the core not fitting in the mold. Since it is common for these pieces to be broken with pieces missing, I've had new steel made for both #127 and #128. Cost is \$5 each. I would rather use your old ones if they are good, but at least new ones are an option.

#### ORDERS AND PAYMENTS

Since most items are hand produced after I receive your order you really won't save much, if any, time by FAXING in an order. However, FAXING a copy of the order you put in the mail will at least give me a heads up on parts I need to make and could save some time. If you just have to have one or two parts in an emergency (like the car is almost together and you forgot to order a key part so you can continue) FAX the order and I'll do my best to get it out quickly. On any request such as this, remember to include your shipping address and phone number even if you are a repeat customer. Saves time and sometimes even a whole day. Remember, poor planning on your end is not an emergency on my end. Trying to get me on the phone is not very productive. I am usually running around (ok hobbling around these days) like some madman trying to get items made and shipped, so the phone is generally ignored. If you have a question, FAX it or, and I hate to say it, or email it. Please, and I'm begging here, try not to email or FAX asking questions that are already answered in the catalog. I'm a one man and one girl shop. Her job is trimming parts, filling orders, cutting out upholstery material etc. She also handles emails and FAXes, but taking up a good part of her day with communications really throws a monkey wrench in the works. I don't have a hood pad for a '64 Rambler, side trim for a Chevy or even any hard parts or trim pieces for '55 and later Chrysler products. Wish I did, but any I had are long gone. On the last page I've listed the few vendors who may be able to help you or steer you in the right direction. I don't keep track of who has what as this information changes quickly. The internet is certainly a great help in finding rare parts. Good old US mail is what I'm used to handling. The order arrives with your check and cores if needed and everything goes smoothly. If you are not sure exactly which part fits your car, just describe it and I'll sort it out (I'll even call you if necessary). I often catch wrong parts ordered for a specific model and change it. With this in mind, if your order contains parts for more than one car, please tell me so I won't assume you ordered the wrong part. Just guess on the money in that case and I'll refund or bill you the difference. Your personal check is fine with me. There is no reason to go through the trouble getting a money order or cashier's check. I do not go through the trouble of waiting for checks to clear to ship an order. Often an order will get to the customer before I even deposit the check. When the order comes, the check goes in an envelope for deposit and the order is marked paid. I make a deposit every week or two or even longer, so the check could be deposited the next day or a few weeks later; just depends on when it arrives. When your check clears has no bearing whatsoever on when your order is done and shipped.

Out of country checks or money orders must be in US funds. Personal Canadian checks are ok in US funds. Overseas checks should be international money orders. A new twist now is that the banks now charge \$5 for any check or money order that does not have a US bank routing number. So, you'll have to add this to your total. I am not set up to take credit cards, but can take payment through PayPal under my email address. I only ask that you add the 4% that PayPal charges me.

#### RETURNS

Simple--you don't like it, return it for a refund (naturally unused). However, unless I messed up you pay all shipping. "Shotgun" orders --ordering a bunch of parts in case you need them and then returning ones you don't use-- is not appreciated. It holds up everyone including you. Order what you need.

#### PRICES

All items are priced as fairly as possible. Over the last few years the prices of materials and manufacturing have gone up tremendously; many have almost doubled in less than 5 years! Catalog #8 was in print for more than 5 years and prices only went up a little. #9 was around for many years and I had to constantly try to keep up with increases, but I couldn't keep up with many things resulting in reality shock when I restocked. From the look of things, I'll continue to have trouble keeping up with prices in #10, so beware, I must warn you, prices are subject to change without notice. As a painful example, most of the reproduction chrome pieces, especially ones that are slow sellers, now cost more for new batches than the prices listed in the catalog. Actually, most of the chrome items are such slow sellers (some of the original batches are almost gone, but only after 20 years) that I can't see having another batch made. When they're gone, they're gone.

#### TERMS

The normal business routine is you send in your order with a check for the full amount unless arrangement are made in advance. Don't fret over thinking that you added a little part later and need to pay right away or that you have old prices. It's not worth the hassle. I will send a bill in the shipment. Since there are hundreds of old catalogs out there, you can bet that the prices are old if

you don't have either a real recent #9 catalog or #10. If there is huge increase from what you thought was the price, we will call you.

#### DELIVERY TIME AND SHIPPING

I ship Fedex when the cost is less than mail. Please note that Fedex can't deliver to a PO box number, I must have a street address. The order form states 15% shipping and handling. This works out most of the time, but on large orders will be excessive. Trunk panels, Firewall pads, seat upholstery, seat foam sets and other such items are oversize II and the costs keep going up. Oversize II is charged at 70 lb. rate even if it weighs only 20 lb., so it's a good idea to order all large items at once. Even a whole 300 interior and everything else I have for the car will usually ship for \$250 or less, don't send \$600! If you order \$1000 worth of expensive items like chrome and taillight lenses, it will not cost \$150 to ship. If the shipping seems excessive, it is. Send your best guess and I'll adjust it accordingly. Please allow 6-8 weeks for delivery. Most orders go in less than 4 weeks, but it depends on how busy things are at the time, especially large orders can take longer, so if there is a group of parts you would like first to keep the project going, let me know and I will get them out earlier. Most 300 interiors even get shipped within two months, but lately the workload has been such that I have a hard time getting them done that quickly. Let me know your schedule and I can plan better for everyone. I can normally send out side panel kits, carpets, headliners etc. much sooner to keep you going if necessary. I generally am gone for two to three weeks in January and as late as March to visit my kids, grandkids and dad in LA and Arizona. I also attend the Chrysler 300 club meet wherever it is during the summer months. This is normally a two week trip. My wife is insisting that we travel a bit more and even take off some weekends. When I'm gone, things come to a halt for the most part. My helper is normally here and can ship some small parts, catalogs etc., but obviously these trips will put things behind a bit.

#### A PERSONAL NOTE

The last several years have been rough, both in business as I've lost several vendors resulting in the nightmare of trying to keep the parts coming and on a personal level. I've been at this for better than 35 years and most of that has been very long days, mostly 7 days a week. I'm not as young as I used to be (no kidding) and the long hours without a break started taking a heavy toll. Fortunately, I got the right therapy (no, not mental) and I'm doing better, have been having more medical trouble lately and the writing is on the wall. I will simply have to take more time off, exercise, relax etc. or face the consequences (and they aren't pleasant). I'm doing everything I can to get the shop more efficient so there is leisure time. Toward this end, I've also had to cut some services that were frustrating, time consuming and didn't pay. You can help by following the guideline above and letting me know what lead time you are dealing with on large orders. This saves time by allowing me to make batches of items instead of setting up for just one so I can try to keep some things in stock. I appreciate your taking the time to read through all this rattling on. I also thank you for your patience and patronage in the past.

Thanks again!

Here is a list of vendors for some items.

**Carpet**— other than the normal upholstery supply stores, Auto Custom Carpets is a good source for lots of color choices. The carpet is expensive, but good quality. They do have molded carpets available from about 1960 and later. Beware, some of the early molded carpets don't fit that well and have the wrong style heel pad. The limited feedback I've heard about them for early cut and seam carpets is that they often aren't the original pattern and have such things as brass grommets for the dinner switch which don't fit over the switch etc. I do make the right heel pads for all the '59-'66 cars and have patterns for all these years. If you want to supply the carpet, I can make the heel pad and cut and sew it for you. The cost would be 50% less than the carpet prices listed on page 4. I would need 5 yards of 40 inch wide carpet or two and a half yards of 30 inch wide carpet. 72 inch wide carpet doesn't hold at all other than supply about a 32 inch wide piece of waste.  
Tel: 1-800-633-2150 P.O. Box 2450 Anniston, AL 36202

**Misc. hard parts**— GWA Mopar 120 E. K St. Colton, CA 92324 (909) 825-1231 IC Auto 20815 52nd Ave. W. Lynnwood, WA 98036 (425) 672-8324 Andy Gerndorf 315 Franklin St. Newton, MA 02458 (617) 243-1119

**convert-to-le-top**— There are many top suppliers. Electron Top has been highly recommended lately, but you have to have an upholstery shop order for you and the price is high. AEM Auto Headlining is a good middle of the road supplier and the price is reasonable. AEM Auto Headlining 350 W. 16th St. Long Beach, CA 90813 (562) 437-0061

**special upholstery materials**— SMS is almost the exclusive supplier these days, but very slow to say the least. I have patterns for many Chrysler New Yorkers, Imperials etc., but ordering and waiting for embossing on special cloths and vinyls messes up my schedule beyond belief. I just can't be in the middle any more. I will be more than happy to do your seats if you supply the material. I do still retinish my own leather when I need special colors and can save you some money compared to having SMS do it. SMS Auto Fabrics 350 S. Redwood St. Canby, OR 97013 (503) 263-3535

**Molding clips**— I have a pretty good selection of clips in the catalog. I've had many made and try to stock enough of the available clips to fill your needs. Please keep in mind that the clips listed are the only ones I have. I don't have time to scour through supplier catalogs trying to find a specific clip and then often finding out that it's obsolete or that it doesn't fit after all. There are specialty fastener suppliers on the internet. They are your best bet. If I don't have the specific clip. Even though I have had a few of the original type moldings clips made for specific applications, I still lean toward the generic ones that fit on the stainless trim and snap into the holes in the body. The reason is that if there is even just a real thin layer of filler around the holes the original body mounted clip won't stay in and will chip the filler and paint.
