

### ENGINE ENAMEL SPRAY PAINT

Mopar Performance's engine paint matches the original color so you can keep your engine the original color. 16 ounces of quick drying enamel is included in each can for painting engine block for fast touch up. See description below for application.

- P4120751** Race Hemi Orange - A bright orange used on cars equipped with Max engines (413 and 426 Cross Ram 1962-64. Also used on 426 race in 1964-65.
- P4349216** Street Hemi Orange - A red-orange used on 426 Street Hemis built in 1969-71, the high performance and 440 engines and in 1970-71, engines were also painted this color. Commonly referred to as "Hemi-Orange".
- P4120753** Black-All 2.2 engines since 1981, and 360 engines since 1983 have painted black from the factory.
- P4120752** Turquoise - This medium blue-green was used on all B/RB big block engines during 1962-71 with the exception of high performance 383/440 engines were painted Street Hemi Orange.
- P4349218** Red - This is the bright red color used on 273 engines from 1964-69. Also, 1968-69 340 engines and most 318 engines were finished in this color.
- P4349217** Blue - This medium blue color was used on all production engines from 1972-exception of the 2.2 engine. Most engines built from the late 1960's to 1972 were painted this color.
- P4529144** Yellow - Used on many early 1960's engines including trucks.
- P4529148** Aluminum Silver - This color was used back as the 1940's and as late as the 1960's. Most of the early Hemi's engines were painted this color.
- P4529149** Gold Metallic - The "Golden Lion" used on the late 1950's and early 1960's and the "Golden Commando" and DeSoto "Adventurer" engines used the color.
